# CONTENTS

1.	<b>Indian Fisheries: Current Scenario</b>	1-2
	<i>L. Narasimha Murthy, A. Jeyakumari and Girija G. Phadke</i>	
2.	<b>Fish Meal: An Overview</b>	3-6
	<i>L. Narasimha Murthy and Girija G. Phadke</i>	
3.	<b>Raw material suitable for fish meal production</b>	7-8
	<i>L. Narasimha Murthy, Jeyakumari, A. and Girija G. Phadke</i>	
4.	<b>Fish meal production: An overview</b>	9-12
	<i>Jeyakumari, A., L. Narasimha Murthy, Laly, S. J. and Abhay Kumar</i>	
5.	<b>Physical, chemical and nutritional properties of fish meal</b>	13-16
	<i>Jeyakumari, A., L. Narasimha Murthy and Girija G. Phadke</i>	
6.	<b>Microbiological quality of fish meal</b>	17-26
	<i>S. Visnuvinayagam, L. Narasimha Murthy and Girija G. Phadke</i>	
7.	<b>Fish meal: specifications and product requirement</b>	27-28
	<i>L. Narasimha Murthy, Jeyakumari, A. and Girija G. Phadke</i>	
8.	<b>Histamine content in fish meal and control measures</b>	29-32
	<i>Laly, S. J., Jeyakumari, A., Abhay Kumar and L. Narasimha Murthy</i>	
9.	<b>Fish Oil and Human Health</b>	33-42
	<i>Jeyakumari A., L. Narasimha Murthy, Laly, S. J. and Abhay Kumar</i>	
10.	<b>Fish meal as an ingredient in aquafeeds</b>	43-46
	<i>Girija G. Phadke and L. Narasimha Murthy</i>	
11.	<b>Implications of Aflatoxins in fish feed</b>	47-50

	<i>Laly, S. J., Jeyakumari, A., Abhay Kumar and L. Narasimha Murthy</i>	
<b>12.</b>	<b>Potential constraints in fish meal production</b>	51-52
	<i>L. Narasimha Murthy, Girija G. Phadke, A. Jeyakumari and Laly S. J.</i>	
<b>13.</b>	<b>Protein derivatives and Nutraceutical products from secondary raw material of aquatic origin-An Industrial Perspective</b>	53-67
	<i>Elavarasan, K, Jeyakumari A and L. Narasimha Murthy</i>	
<b>14.</b>	<b>Agricultural and animal farm inputs from fishery waste</b>	68-76
	<i>Zynudheen A.A, Narasimha Murthy L and Jeyakumari A</i>	
<b>15.</b>	<b>Fish industry waste: Treatments and environmental impacts</b>	77-83
	<i>Laly, S. J. L. Narasimha Murthy and Ashok Kumar. K.</i>	
<b>16.</b>	<b>Quality evaluation of fish meal</b>	84-112
	<i>L. Narasimha Murthy, A. Jeyakumari, Laly, S. J. and Girija G. Phadke</i>	
	A. Estimation of moisture	85-86
	B. Estimation of crude protein	87-89
	C. Estimation of crude fat	90-91
	D. Estimation of total ash	92-93
	E. Estimation of pH	95
	F. Estimation of TVB-N	96-98
	G. Estimation of TMA	99-101
	H. Estimation of peroxide value	102-103
	I. Estimation of free fatty acid value	104-105
	J. Estimation of heavy metal content	106-107
	K. Estimation of histamine content	108-109
	L. Estimation of salt content	110
	M. Estimation of acid insoluble ash/ sand silica content	111-112
	<b>References and further Reading</b>	113-117
