

12. **Agnihotri, Y., Agarwal, M.C. and Nirmal Kumar. 1998.** Relative efficiency of Latin Square Design with *Eucalyptus* on Shiwalik hills. *Indian For.*, 124(4):231-239.

The relative efficiency (%) of various Latin Square Designs (LSDs) was worked out and compared with Complete Randomized Designs (CRDs) and Randomized Complete Block Design (RCBD) for various sizes and shapes of plots with height and diameter at breast height (DBH) of *Eucalyptus* in Shiwalik hills. The number of units in CRD and RCBD when rows treated as blocks (ignoring columns) and columns treated as blocks were computed. The number of units in CRD and RCBD taking rows as blocks or columns as
