

340. Patnaik, U.S., Chittaranjan, S. and Rama Mohan Rao, M.S. (ed.) Singh, R.P. 1987. Conservation Ditching for Soil and Water Conservation in Low Rainfall Vertisol Regions (Ed. R.P. Singh). Bulletin No. T-19/D-15, CSWCRTI, Dehradun: 30 p.

The bulletin deals with the conservation ditching as an alternative to contour and graded bunding, which have not been found suitable in deep black soils (Vertisols) under low rainfall conditions of Andhra Pradesh, Karnataka, Maharashtra and Tamil Nadu. The results obtained out of the studies carried out on this technique at CSWCRTI, Research Centre at Bellary (Karnataka) have been presented with relevant photographs to make it useful to the farmers for adoption in their fields.
