

- 485.** Singh, Gurmel, Koranne, K.D., Tiwari, S.P. and Sumer Chand. 1981. *Barani gehun seed drill se hi boyen. Kisan Bharti*, 11(8): 21-26.

Deals with the efficacies of various seed-drills in achieving higher seed-germination due to efficient use of soil moisture available in lower sub-surface. It is indicated that in comparison of conventional method, seed-drill sowing gives much higher rate of seed germination and subsequently in higher yields.
