Grasses for Soil Conservation in Shiwalik Hills. Bulletin No. T-25/C-4,
CSWCRTI, Research Centre, Chandigarh, 54 p.

The Central Soil and Water Conservation Research and Training Institute, Research Centre, Chandigarh, established in 1956, has been carrying out research on various aspects of grasses and grasslands in Shiwalik hill region. This has led to the generation of very valuable research data. The authors have endeavoured to synthesize the information on the role of grasses in forage production and soil conservation in the overgrazed, over-exploited
