

777. Samraj, P. 1981. Useful alien trees of the Nilgiris. Bull. Bot. Surv. India, 23(3&4):243-249.

The article gives a brief account of various tree species valued for industrial use, timber, medicines, condiments and beverages, pomological and ornamental value, etc. which were introduced around Ootacamund from 1828 onwards. These species, since been acclimatised,

need further research to exploit their full potential.
