

- 1138. Bhardwaj, S.P. 1987.** Operational research projects on watershed management. Souvenir, Inauguration of the new Office-cum-Research Laboratory Building, CSWCRTI, Dehradun, Dec. 12, 1987: 32-35.

The article presents the components and achievements of Operational Research Projects developed and implemented in 17 watersheds by CSWCRTI, Dehradun and its Research Centres. It was indicated that micro-level scientific planning and management of resources on watershed basis is the key for optimising production and conservation of environment on long-term basis. Water storage acts as a catalyst for the active and effective involvement of farmers. The participation of farmers, technicians, developmental agencies and district administration has been emphasised for successful programmes of watershed development.
