About the Editors.....

Dr. Sudhir Kumar Soam, Principal Scientist, NAARM holds the Doctorate in Botany. He has done several national and international research and consultancy projects in the specialization of WTO and IPRs in agriculture and project management. He is globally travelled professional trainer in agricultural research management and also functions as member of policy decision making body of several national and international organizations related to IPRs and agrobiodiversity.

Mr B Hanumanth Rao, Manager, Intellectual Property, ICRISAT, holds a Masters degree in Business Laws from National Law School of India University, Bangalore, India. He is responsible for the execution of a program of work for implementing the ICRISAT's policy on Intellectual Property under the direction of Deputy Director General—Research. He was instrumental in setting up the IP Office in ICRISAT. Represented ICRISAT in various national and international IPR conferences in India and abroad and has done several international projects on IP management.

Dr. Victoria Henson-Apollonio, Senior Scientist and Manager of CAS-IP since its creation in 2000. Her unique background combines both scientific and academic achievement with real-life IP expertise. She has many years practical experience as a patent agent and as a technology transfer (TT) and patent specialist at the Argonne National Laboratory and as a tenured member of the faculty of the Department of Biology at Purdue University, USA. This overlap of scientific and legal skills makes her exceptionally well placed to offer advice on IP and TT issues in agriculture. A graduate from the University of Florida's College of Agriculture (Major in Animal Science), Victoria holds a PhD in Pathology (College of Medicine; University of Florida) and is a registered U.S. Patent Agent.
