

24. **Das, D.C., Chandrasekhar, K., Kurian, K. and Thomas, P.K. 1971.** Investigations on drought from various climatic parameters at Ootacamund. *J.Agril. Engg. ISAE*, VIII(4):13-23.

Rainfall and temperature data of 31 years at Ootacamund have been analysed. From the incident rainfall, aridity, index, moisture index and precipitation-evaporation index were computed. The drought of occurrence in four classes were determined for the period and variations in annual 2 years, 3 years, 4 years moving values of the above indices were also presented graphically.
