

22. Gupta, S.K., Ram Babu and Tejwani, K.G. 1975. Weekly rainfall of India for planning cropping programme. *Soil Conserv. Digest*, 3(1):31-36.

Probability analysis of weekly rainfall data of 23 stations located in various rainfall zones has been provided. Instead of average or normal rainfall use of 80% and 50% chance (8 and 5 years out of every 10 year) rainfall is more reliable.
