This relationship provides a simple and rapid tool for the computation of kinetic en (KE) and erosion index (EI) values of the rainstorms.

125. **Verma, B. 1984.** Determination of Erosion and Parameters of Universal Loss Equation with runoff plots. Bulletin, CSWCRTI, Research Centre, K 16 p.

The bulletin deals with runoff plots which are gauged with multislot divisors and run cum-silt collection tanks. It describes such runoff plots as a handy tool for determinatio
