

283. Das, D.C., Raghunath, B. and Poornachandran, G. 1977. A rational method (Modified Stewart) for spacing bunds and trenches across slope and spacing of graded trenches at Ootacamund. *J. Soil & Water Conserv. India*, 27(1&4): 37-47.

Discusses the efforts in offering a rational basis both from field observations and analytical derivations particularly for graded trenches and in general for all bunds and trenches required to be constructed across the landslope to check erosion.
