

344. Prabhanjan Rao, S.B., Ramanath, B. and Mittal, S.P. 1973. A promising *jowar* variety for rainfed areas. *Sorghum Newsletter*, 16: 73-74.

Discusses the performance and suitability of CSH-1 *jowar* hybrid with other *jowar* varieties like Swarna, 5-4-1 and M 35-1 under low rainfall conditions. *Jowar* var. 5-4-1 gave higher economic returns, lower shootfly incidence, lesser fertilizer requirements and better grain quality as compared to CSH-1 which yieldwise was a higher yielder.
