

general afforestation.

- 516.** Singh, Ravender and Bhardwaj, S.P. 1990. Healthy soil wealthy land. *Intensive Agric.*, XXVIII(4): 3-9.

The article provides information on soil erosion and presents data on nutrient losses as a result of soil erosion, under various crops, crop-rotations in planes as well as slopy lands. The effect of soil erosion on the productivity and various conservation measures viz. conservation agronomy, conservation forestry and conservation engineering are highlighted.
