

521. Singhal, A.K., Khybri, M.L. and Bains, K.S. 1977. Studies on intercropping of

*kharif* legumes with *jowar* under rainfed conditions. *Soil Conserv. Digest*, 5(2):11-15.

From a study on intercropping of *kharif* legumes, namely, blackgram, cowpea and *arhar* with *jowar* under rainfed conditions in field at Kota (Rajasthan), it has been revealed that intercropping *jowar* and *arhar* in alternate lines 30 cm apart gave much higher returns than other crop combinations.
