

590. **Yadav, R.C. and Bhushan, L.S. 1987.** Irrigation water conveyance for reclaimed ravine lands. Abst. No. 17, National Symp. on "Land and Water Management in Ravines", CSWCRTI, Research Centre, Agra, March 19-22, 1987: 14.

Studies on planning and design of irrigation water conveyance were conducted at Agra. The case study considers irrigation system for three pumping sets at the farm and their command area. Benefits of using conjunctive use of water conveyance are quantified and results are discussed with a view to using it for other areas.
