

596. **Agnihotri, R.C., Bhushan, L.S., Narayan, D., Singh, S.P. and Gawande, A.P.** 1990. Effect of land development on productivity of ravine land at Agra. Pre-session Volume, Third IWRS National Symposium on "Watershed Development and Management", CSAU, Kanpur, Feb. 02-04, 1990: 34-38.

Conservation practices carried out in the Operational Research Project on ravine watershed at Etmadpur, Agra have been evaluated. The study revealed that terracing and levelling motivated farmers in the watershed to add organic manures, fertilizer and plant protection measures etc. and resulted in higher yield ranging from 30 to 112% of different crops.
