

883. **Erasmus, I.I. and Bansal, R.C. 1965.** A runoff prediction equation for small watersheds for use in watershed planning in the Ambala Shiwaliks. *Indian For.*, 91(8):548-553.

Deals with runoff data for six different sized experimental watersheds at Soil Conservation Research Station, Chandigarh. The data has been correlated with rainfall intensity and area. A runoff prediction equation has been derived for application in small watersheds in the Shiwaliks around Ambala.
