

912. **Mishra, P.R., Dayal, R. and Bhola, S.N. 1967.** Economics of ravine afforestation with special reference to Chambal ravines. Proc. 11th Silvi. Conf., FRI & Colleges, Dehradun, 11:683-689.

Economics of afforestation of Chambal ravines has been worked out. Forage yield trial conducted over 10 years revealed an annual yield of 53.92 quintals of green grass per ha, the return from which alone was Rs. 540/ha/year. Assessment of fuel from the growth statistics of 10 years old *babul* plantation revealed the return of Rs. 500/ha/year.
