

- 924. Puri, D.N., Juyal, G.P. and Katiyar, V.S. 1982.** Hydrology of a forest watershed- A case study. Internl. Symp. on "Hydrological Aspects of Mountainous Watersheds", Roorkee, Nov. 04-06, 1982. VIII: 28-35.

The paper presents results of a study on hydrological behaviour *vis-a-vis* design, construction and rating of the flume pertaining to a remote mountainous fourth order watershed with 87% forest cover in the lower Himalayas with 63% mean slope. The constraints in construction and gauging such watersheds are also discussed.
