

1150. **Dhyani, B.L., Ram Babu, Sewa Ram, Katiyar, V.S., Arora, Y.K., Juyal, G.P. and Vishwanatham, M.K. 1990.** Economic evaluation of Operational Research Project, Fakot (Tehri-Gahrwal), UP. Proc. Internl. Symp. on "Water Erosion, Sedimentation and Resource Conservation", CSWCRTI, Dehradun, Oct. 09-13, 1990: 497-506.

The Operational Research Project at Fakot in Tehri-Garhwal hills, was undertaken to test soil and water conservation techniques in a small watershed of 370 ha using demonstration approach. The overall benefit:cost ratio of the whole project worked out to be 1.93:1 indicating that soil and water conservation works are economically sound and environmentally desirable even on demonstration approach.
