

1192. Dalal, S.S., Wasiullah and Singh, B. 1961. Fires in relation to watershed management. Proc. 10th Silvi. Conf., FRI & Colleges, Dehradun, I:236-241.

Describes the ill-effects of forest fires on physical condition of the soil, vegetation and the hydrological conditions of the watershed and emphasizes the need of fire protection in various river catchments. Judicious use of fire is also suggested.
