

- 1305.** **Vimal Kishor, Gupta, R.K. and Ram Babu, 1980.** Economy of a typical hilly watershed-A case study of Bhaintan watershed, Distt. Tehri Garhwal (UP). Abst. 137, National Symp. on Soil Conservation and Water Management

in 1980's, Dehradun, March 12-13, 1980: 97-98.

The present study is an attempt to study various aspects of these broad indicators in a typical hilly watershed of UP Himalayas. The crop-production activity of the watershed inhabitants has been studied separately under crop-rotations. The data has been gathered through complete enumeration of 94 farm families living in the watershed.
