

- 1362. Arya, S.L. and Ram Babu 1988.** Impact of Lab to Land Programme on small and marginal farmers. *Indian J. Soil Conserv.*, 16(3): 49-55.

CSWCRTI, Dehradun started Lab to Land programme (phase-I) in Chharba village of Dehradun district in 1979-80. After a period of five years (1985-86), the programme was evaluated for the changes in overall development of the farmers and to find out the constraints. The results revealed that the programme has made significant impact on the overall living standard of poor resource based farmers by raising to 30% their income, increased yields of wheat by 73%, of maize by 112% and of paddy by 74% over the year 1978-79 and also through other supplementing activities like horticulture and farm forestry, etc.
