NATIONAL SEMINAR

ON

"ENGINEERING AGRICULTURE FOR EVERGREEN REVOLUTION"

September 24-25, 2010

Venue

S.V. Veterinary University Auditorium, Tirupathi

Organized by

Indian Society of Agricultural Engineers, AP Chapter

in Association with

Acharya N.G. Ranga Agricultural University, Hyderabad

and

Central Research Institute for Dryland Agriculture, Hyderabad

ENGINEERING AGRICULTURE FOR EVERGREEN REVOLUTION

The green revolution which was input intensive that provided the much needed food security has developed a fatigue. Hence, we have to revisit the agricultural research, education and technology transfer for increased technology use in enhancing the total factor productivity. In view of present climate change scenario it is needed to sustain the natural resources coupled with agricultural production environment by introducing advance engineering techniques such as precision agriculture, integrated watershed management, precise energy and water management and appropriate farm mechanization, agro-processing and value addition with special emphasis on rainfed agriculture.

India needs agricultural technological interventions to make rainfed and irrigated agriculture more productive, sustainable and remunerative to farmers. The next green revolution has to be achieved only through adoption of agricultural engineering principles and practices for the development and sustainability of agriculture. Hence, the agricultural engineers have a significant role to provide technical support to the agriculture to make it more sustainable and profitable.

In view of the above, ISAE (AP Chapter), proposes to conduct a national seminar on **"Engineering Agriculture for Evergreen Revolution"** with the following focus areas.

1. Integrated Watershed Management
2. Water and land productivity enhancement
3. Farm mechanization and precision agriculture
4. Agro-processing and value addition
5. Agril. Engineering and climate change
6. Energy in agriculture

Format

The Seminar will have the presentation of lead papers in focus areas by experts followed by selected contributory papers along with inaugural and plenary session.

Call for papers

Participants desirous of attending the seminar and contribute paper are requested to fill up the enclosed registration form and submit an extended abstract of not exceeding four pages (double space) containing title, authors, affiliation, abstract, a brief introduction, methodology and results with important references. The deadline for submission of such extended abstract is **July, 31st, 2010**. Authors will be intimated about the acceptance of their paper for oral/poster presentation along with necessary instructions. The abstracts and full length papers must be sent to the organizing secretary of the seminar, through **E-mail : ns.isaeap.tpt@gmail.com**

Important Dates

Submission of extended abstract	: 31 st July, 2010
Registration fee	: 01 st September, 2010
Communication to the authors	: 15 th August, 2010
Submission of full paper	: 31 st August, 2010

Registration fee

Society Members	Rs 1500
Student and farmers	Rs 500
Non members	Rs 3000

Participants are requested to register themselves for participation in the seminar on or before September 01st, 2010 by paying registration fee in the form of demand draft in favour of **"Treasurer, Indian Society of Agricultural Engineers, AP Chapter"**

Accommodation

The venue has limited guesthouse accommodation which can be provided on first come first serve basis. However, the city has excellent accommodation facility that suits to different choices.

About Tirupati

Situated in the Chittoor district of Andhra Pradesh, Tirupati is the abode of Lord Venkateswara. Tirumala Balaji Temple is located at Tirumala, 18 km. northwest of Tirupati at a height of 874 mt. above sea level amidst the hills known as seven hills of the Eastern Ghats. The town is thronged by devotees all around the year. Keeping the tropical climate of Tirupati in mind, the best time to visit the pilgrim destination is during the months of September to March, when the weather conditions are at their very best. Tirupati is well connected through rail, road and air from major cities.

Tariff for Advertisement

A souvenir consisting compilation of lead papers and extended abstract will be printed and distributed among the participants. Leading industries dealing with agricultural engineering are encouraged to advertise their products and services. The tariffs are

Half colour page	Rs 7,500
Full colour page	Rs. 15,000
Half page b/w	Rs. 5,000
Full page b/w	Rs. 10,000

Leading corporate houses and industries are invited for sponsorship of the seminar.

Advisory Committee

Dr P Raghava Reddy, Hon'ble Vice-Chancellor, ANGRAU, Hyderabad
Dr. Gajendra Singh, Chairman, ISAE, New Delhi
Dr. A. K. Singh, DDG (NRM), ICAR, New Delhi
Dr. M. M. Pandey, DDG (Engg), ICAR, New Delhi
Dr. B. Venkatesvarlu, Director, CRIDA, ICAR, Hyderabad
Dr. N.P.S. Sirohi, ADG (Engg), ICAR, New Delhi
Dr.VV N. Murthy, Retd. Professor (Agril.Engg.), Hyderabad
Dr K V G K Rao, Consultant (Land drainage), Hyderabad

Organizing committee

Dr.K.Raja Reddy, Asso. Director of Research, RARS, ANGRAU, Tirupati
Er. T.Vijaya Bhaskar Reddy, Gen. Secretary, ISAE, AP Chapter
Er.G.V. Ramana Reddy, Vice President, ISAE AP Chapter
Dr.M. Raghu Babu, Vice President, ISAE,AP Chapter
Dr.M.V Ramana, Asso. Prof., ANGRAU, Hyderabad
Dr.T.V.Satyanarayana, Dean, Faculty of Agril Engg, Bapatla
Dr.K.Yella Reddy, Principal Scientist and Project, Manager (APWAM)
Dr.D. Bhaskar Rao, Associate Dean, CAE, Madakasira
Dr. Aum Sharma, Principal Scientist and Head, ANGRAU, Hyderabad
Dr.K. Sadasiva Rao, Head, Dept. of Agril. Engg, ANGRAU, Hyderabad
Er. R. K .Goud, Manager, (Agril. Engg), APSAIDC, Hyderabad
Er.D.Vidya Sagar, RM, APSAIDC, Chittoor
Dr.Kalimulla, Asso. Prof., ANGRAU, Pulivendula
Dr. Nemichandrappa, Head (SWCE), CAE, Raichur
Dr. C. Ramana, Senior Scientist, RARS, Tirupati
