

... areas, have also been described.

34. **Gupta, S.K., Dalal, S.S. and Ram Babu. 1968.** Analysis of point rainfall data of Dehradun. *Irrigation and Power*, 25(3):291-300.

Annual, monthly and seasonal rainfall data pertaining to Dehradun for 99 years have been used. The frequency and duration analysis has been made for 24 hours and less duration and tables have been prepared for rainfall intensity of various duration and frequencies. Mathematical equations for frequency curves have been developed for various duration and probable maximum rainfall.
