

11. Dhruva Narayana, V.V. 1987. Soil and water conservation research in India. *Indian J. Soil Conserv.*, 14(3):22-37.

On the basis of various research studies conducted at the Central Soil & Water Conservation Research and Training Institute, Dehradun and its regional stations, the soil and water conservation measures recommended for the hill regions (Dehradun, Chandigarh and Deodarsund), ravine regions (Agra, Kota and Vasad and black soil (semi-arid) region (Bellary) have been reviewed. Further, the different aspects on which soil and water conservation research should focus in future have been suggested.
