

Prasad, S.N., Subhash Chandra and Bhardwaj, S.P. 1981. *Nitrogendhari urvarko ki kshamta badhaiye-labh hi labh. Kheti*, 34(8): 39-42 & 50.

The article shows with the support of research data that the efficiency of nitrogenous fertilizers can be increased considerably through proper use and application of appropriate doses of these fertilizers. Various techniques of fertilizer application at suitable stages of crop growth, varying from one fertilizer to the other, have been described. Crop yield data pertaining to rice, maize, *jowar* and wheat as influenced by different doses and kinds of fertilizers are given.
