

675. Gupta, R.K., Arora, Y.K. and Shukla, D. 1982. Know peach cultivators of Doon Valley. *Indian Hort.*, 27(1):2-4.

Promising peach cultivars grown as sole crops and also as an intercrop with soybean, cowpea, turmeric, ginger, mentha species on class II lands of Doon Valley have been presented with yield data. Economics of peach cultivation has also been worked out. Floradasun was found most promising both as sole crop as well as in intercropping system.
