773. Samraj, P. 1977. The Nilgiris trees. *Indian Fmg.* XXVI(11):21-22.

The paper gives an account of several exotic trees introduced from the early 19th century and now naturalised in the Nilgiris alongwith the existing *shola* trees. The significance of these trees, their history of introduction and their potentialities for the economic and industrial exploitation are highlighted. The future scope for research on *shola* as well as exotics is discussed.
