**Samraj, P. and Chinnamani, S. 1978.** Black wattle cultivation in Nilgiris. *Indian Fmg.*, XXVIII(1):15-18.

The authors emphasises the need of raising plantation of Black wattle in the Nilgiris to meet the increasing demand of the wattle bark which is used for commercial purposes. A brief description of the wattle tree with special reference to the performance, cultivation practices, management and harvest, natural regeneration, yield and economics has been presented.
