

788. Saroj, P.L. and Arora, Y.K. 1995. Some land configurations for *in situ* moisture

conservation in fruit culture. *Farmer & Parliament*, XXXII(3):9-10 & 26.

Various moisture conservation practices in respect of fruit orchards suitable for different soils and agro-climatic conditions are described in this article. It also gives an account of other associated measures for the success of such orchards and raising of fruit plants.
