

3.1 Rainfall, runoff, vegetation, soil characteristics and management practices

850. Adhikari, R.N. and Chittaranjan, S. 1988. Hydrology based model for prediction of runoff and sediment yield with limited data for agricultural watershed. *Indian J. Dryland Agri. Res. & Dev.*, 3(2):248-249.

The paper describes method for estimating runoff and soil loss in respect of Chitradurga district (Karnataka) on the basis of limited data on rainfall of this region.
