

1057. Singh, Gurmel. 1990. Rainwater harvesting and recycling for sustainable agricultural production. Proc. Internl. Symp. on "Water Erosion, Sedimentation

and Resource Conservation", Dehradun, Oct. 09-13, 1990: 157-168.

The paper highlights the role of rain water harvesting for maximizing crop production in rainfed areas, occupying about 72% of the total arable land in the country.
