

1058. Singh, Ravender and Bhardwaj, S.P. 1983. Store rainwater for crops-water harvesting-I. *Farmers' Journal*. 3(3):18-19.

The article describes how the village tanks and farm ponds, full of collected rain water can play a vital role in increasing the yields especially in areas where rainfall is the only source of crop production. Effect of a single irrigation from harvested runoff water on the crops viz. *jowar*, maize, barley and wheat in the rainfed areas, namely, Bijapur, Solapur, Jabalpur, Jhansi and Dehradun has been shown with research data.
