

1288. **Dhyani, B.L., Samra, J.S., Juyal, G.P., Ram Babu and Katiyar, V.S. 1997,** Socio-Economic Analysis of a Participatory Integrated Watershed Management in Garhwal Himalayas (Fakot Watershed) (Ed. R.P. Singh). Bulletin No. T-35/D-24, CSWCRTI, Dehradun 248195: 113 p.

Fakot Watershed Management Project in Garhwal Himalayas is one of the pioneering and most successful projects developed by Central Soil and Water Conservation Research and Training Institute, Dehradun. The project is a live model of community driven self-sustainable development for lower and middle Himalayas. The bulletin is an outcome of 11 years of dedicated efforts of implementation and 21 years of voluminous data collected in a systematic manner by the Institute scientists. The data have been analysed comprehensively covering all aspects of watershed management with emphasis on arable and non-arable land, livestock, socio-economic, hydrology, environment, employment, people's participation and sustainable development, etc., with concrete suggestions.
