## Introduction

The ICAR-Central Institute for Research on Cotton Technology (ICAR-CIRCOT), one of the premier constituent institutes of the Indian Council of Agricultural Research (ICAR), was established in the year 1924. The Institute is conducting research and development on all aspects of post-harvest processing of cotton and value addition to cotton by-produce with following mandate:

- Basic and strategic research on processing cotton and its agro-residues, development of value added products and quality assessment
- Skill development and business incubation services and function as referral laboratory for cotton fibres.

The Institute has been conducting skill development programmes to propagate, encourage and guide entrepreneurs to successfully adopt and market commercially viable technologies and to equip people with best practices in cotton ginning, quality evaluation of cotton fibres and value addition to by-products.

## About the Training Programme

India is the second largest producer of textiles and garments in the world with a market size of around US \$137 billion. The Indian textiles and apparel industry is expected to grow to a size of US \$ 223 billion by 2021. Knitwear is an important market segment of industry that has become popular among all men, women and kids. The Indian knitting industry is one of the most innovative global producers of knitwear products. Today, there has been a tremendous change in technology. A large number of sophisticated computerized knitting, embroidery machines, dyeing machines, state of the art sewing lines, CAD/CAM systems, large scale processing machines are used in Indian knitting industry. The production speeds have raised in recent years and the buyers are more and more conscious about the quality of garments manufactured in the mills. Hence it is necessary to know the various aspects related to knit fabric production, garment production and quality control of fabrics and garments. In view of this, ICAR-CIRCOT is conducting a training programme on “Knitting and Knit Garments” for the benefit of industry personnel, researchers, academicians and students.
